

CLEVER INVENTION FOR DIGGING BEETS

Frank Briggs Contrives an Implement Which Covers Three Acres A Day.

After more than ten years of incessant labor, Frank Briggs has at last solved the beet harvesting problem. Of recent years the sugar beet so scarce on farms that the sugar beet growers have become somewhat discouraged, but Mr. Briggs' machine will probably double the profit in beet raising.

On the farm of E. T. Walton at First West and Fourteenth South street the top and the digger are both in operation in heavy soil and the results are entirely satisfactory. Mr. Walton said Thursday afternoon, "If the machine will work on my land, they will work anywhere in the country, for my land is sticky, black clay."

The top and the digger were combined heretofore, but they are in two parts on Mr. Walton's farm. The digger is directly under the top. The digger is adjusted so that it is only slightly below the surface of the soil. Just in front of the digger is a solid disc which rises or falls in accordance with a high or a low bed of ground. The digger, which is on the principle of a carpenter's plane, shaves the top of each beet. The digger, which is drawn by two horses after the top, consists of two small plow points placed the width of a beet apart. The beets rise up onto a carrier into a basket at the rear, from which they are dumped into a wagon running alongside.

When it is considered that a single machine requires the use of a single horse, man and team to pass twice across each row, then will each separate beet by hand, shake the clinging soil from it, throw it into a pile, pick up each beet and hack the top off with a knife, throw it into a pile for loading—all of which is now accomplished by one man driving a team—the advantage of the Briggs machine is apparent.

With good driving the Briggs machine will mine only about one beet in 20—that is, it is necessary to take off a beet here or there, requiring only a few minutes for a whole row. It is astonishing, however, how cleverly it will jump up to take the beets from the ground and then immediately bob down to get one almost covered with earth. It is probable that the machine will be manufactured in Salt Lake City. The machine digs and tops three acres a day.

COUNCIL DIVIDES CONTRACT.
Decides to Buy Fire Hose From Two Concerns.

After wrangling and jangling for several weeks past over the matter of the purchase of 5,000 feet of fire hose for the fire department, a compromise was effected last night in the meeting of the council as a committee of the whole, whereby the contract will be divided.

USE POSLAM FIRST.
For Any Skin Disorder—Marvelous Results Are Quickly Seen.

Poslam appeared to Mr. George Perkins, Providence, R. I., to be high-priced. "But," he writes, "I thought to myself there must be something good about it or it would not be that price. Its effect was marvelous. I had a disease all over my body; in two weeks I was a new man; not a blemish or a pimple on my body."

Poslam is now universally used for all skin disorders, because it actually heals out the claims made for it in relieving itching, once, and healing quickly and restoring the skin to normal condition. Use poslam first before resorting to anything less dependable for any form of eczema, acne, tetter, salt rheum, piles, barbers' and all other forms of skin, and as blemishes, such as, freckles, redness, inflamed skin, etc. Poslam is sold in two sizes (trial, 50 cents; regular, \$1.00) by all druggists, particularly Schramm's Drug Co. For free sample write to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

THEY LIKE SALT LAKE.
Hawallians Investigate Mining Properties in Utah Camps.

Having spent several days in the environs of Salt Lake City studying various mining problems, J. Jorgensen, consulting engineer of the Hawaiian Irrigation company and Oahu Sugar company, and J. Laird, of Honolulu, expressed themselves as being captivated with Salt Lake City. Mr. Jorgensen said:

"Do we like Salt Lake? Well, I have been in many cities of the world and I am frank to say that your city is the most beautiful one I have ever been in. Your broad streets with the running water under a sky of blue, your beautiful business blocks and your hundreds of pretty homes, in mansion, bungalow and cottage, make it a most beautiful place, and I should say a most desirable place to live. Yes, I love the islands but I am captivated with your city."

Messrs. Jorgensen and Laird were taken to several mining camps about the city by W. E. Hubbard; and they left for Denver Thursday afternoon.

DEATH OF EARL WILSON.

Falls to Rally After Operation at Local Hospital.

Earl L. Wilson, 30 years old, brother of Howard F. Wilson, a city detective, and for some years well known as a grocery man, died at 1 o'clock this morning in the Holy Cross hospital. Cancer of the stomach caused the young man's death. He had been in good health apparently until last Saturday when he was taken to the hospital. An operation was performed and Mr. Wilson began to lose vitality. At his bedside were his mother, now a resident of Idaho, and another brother living in Salt Lake. A sister living in Los Angeles could not get here in time to be at the end.

Earl L. Wilson was born in Columbus Junction, Iowa, in 1880, and came to Salt Lake with his parents when a boy of 11. Seven years ago Mr. Wilson became a member of the grocery firm of Andrews & Wilson, with a store at Eleventh East and Washington streets. With his wife and little child Mr. Wilson made his home at 1555 South Eleventh East street. Besides the widow and child, Mr. Wilson is survived by his mother, Mrs. Annie E. Wilson of Nodus, Idaho, who arrived here on Tuesday; Porter and Howard F. Wilson of Salt Lake; Alexander Wilson of Nodus, Idaho; Mrs. C. M. Ball and Miss Lonnie Wilson of Los Angeles, Cal.

WORLD'S RECORD COW.
The world's record 3-year-old Guernsey cow, Dairymaid, Pinehurst, will be one of the big attractions at the National Dairy show, Chicago, Oct. 20-23. Her owner, Mr. W. W. Marsh of Waterloo, Iowa, has consented to exhibit her because of the great interest manifested by dairymen in this wonderful cow. Her year's record as a 3-year-old is 1,063 pounds of butter, or enough to supply four families of four persons each for the year with butter for their bread, cream for their coffee and milk for the little ones. When it is considered that the average cow produces only about 600 pounds of butter in a year her performance as a very young cow appears phenomenal.

ACHES AND PAINS.
You know by experience that the aches and pains of rheumatism are not permanent, but only temporarily relieved by external remedies. Then why not use an internal remedy—Hood's Sarsaparilla, which cures rheumatism depends and cures the disease?

This medicine has done more for the rheumatic than any other medicine in the world.

HUMANE CLUBS FOR COPS.
What Police Need, Though, Is Something to Hit.

With the city running riot with murder and crime Chief of Police Barlow spent most of yesterday in consultation with N. Rex, representing a firm who are trying to make the policemen of Salt Lake pay the sum of \$4 out of their wages for a patent club that has the merit of being "humane." The club is a solid piece of rubber and the handle is strengthened by a steel wire. "What this police force needs is subjects," said a caller at headquarters yesterday. "The wooden clubs are good enough, and there is no call for anything more humane."

It is expected Chief Barlow will recommend that the council order the police to put up \$4 for the "humane" club.

PICKED UP ON BATTLEFIELD.
Old Silver Identification Badge Worn By Civil War Soldier Comes to Light.

It is nearly 50 years since the war of the Rebellion began and 45 years since it ended. It is always interesting when relics of the Civil war are long hidden from view and forgotten, come to light. At the office of the assistant adjutant general of the Massachusetts G. A. R. in the state house is a silver identification badge recently found among his belongings by Peter Lattimer of the West End, who is anxious that the owner, if alive, or the heirs, may have it returned to them. The badge is marked "Miner Miller, Company C, Sixteenth New York." On the reverse side is stamped "32d N. Y." The badge was made from a foreign silver coin. It is suspended by a small silver ring. According to the records of the New York enlistments, Miller was enrolled as a private in the Thirty-second New York regiment for a term of nine months, and then re-enlisted or was transferred to the Sixteenth artillery. The badge was picked up on one of the battlefields of the south and brought north. Mr. Lattimer only recently came across this interesting relic and hopes it may be returned to the owner or his family, if they exist. He gave it to Dr. J. W. Dixon, and through him Adj. Gen. De Wolf received it.

THE MEASURE.
The Ancient Judge sat before the Scales of Worth.

"Bring forth the royal treasure!" he cried; and the hurrying slaves poured into the huge pan, sacks of golden metal, caskets of sparkling gems until it seemed as if all of the wealth of earth were there. Yet the balance never stirred.

"Let the learning of the ages be added," came the order; and tons upon tons of the wisdom of sages, philosophers, scientists and poets were heaped upon the pile. And still the great arm of the scales remained high in air.

"Add now the men of power and high position," said the judge, "and the scale will fall! But all in vain. Out-weighs all these!" asked one. "It is character," said the judge.—The Portent.

FEW DOSES PUT BAD KIDNEYS IN ORDER

In all the world there is no man or woman who can afford to neglect the slightest kidney disorder for one single day.

Kidney diseases are the most dangerous, because the first signs are seen in other parts of the body before anything wrong is noticed with the kidneys themselves.

Some of the symptoms, though, cannot be mistaken; for instance, a constant aching or misery in the back, sides or joints, or headaches and dizzy spells, or nervous twitches, disturbed sleep, inflamed or puffy eyelids, heart palpitations, rheumatic pains, weakness, bilious stomach or a feeling of languor and fatigue. Sick, unhealthy kidneys also cause thick, cloudy, offensive urine or it is full of sediment, irregular of passage and often uncontrollable, or attended by a sensation of scalding.

The time to cure kidney trouble is before it settles into Diabetes, Dropsy, Gravel, Bright's Disease, or any of the many other ailments the slightest kidney, bladder or urinary disorder, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere in the world, which will effect so prompt a cure. In just a few days you feel and know that the kidneys, bladder and urinary organs are healthy, clean and normal and all danger passed.

You, physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who have the sole right to the kidneys, bladder and urinary organs are healthy, clean and normal and all danger passed.

GOOD ENOUGH.
Robert Edison was standing in front of a thermometer, madly mopping his brow. Nevertheless, he smiled, because it is so hot it couldn't possibly be hotter, he explained, "and so it must get cooler soon. Nothing really matters, that doesn't last. You see, I take the same point of view as the waiter my friend Smythe wanted to kill on the first trip abroad."

"At the first meal on board the ocean liner Smythe was beginning to feel like casting his bread upon the waters. His friends had told him that when he began to feel that way he should stuff himself. He tackled a cutlet first, but somehow it didn't taste right. He observed to the waiter: "Waiter, this cutlet isn't very good."

"The waiter looked at his whitening face, then said:

"Yes, sir; but for the length of time you'll have it, it won't matter, sir."

—Young's Magazine.

DISINFECTING CARS IN PRUSSIA.
Disinfection of the coaches of the Prussian state railways has been an annoying sanitation authority, with the result that the government recently established a system of steel tubes, boiler-ripped, into which coaches may be heated and exteriors and interiors rendered germless through a treatment of formalin.

Cars are run into these tubes, one at a time, the doors and windows closed, and the interior filled with formalin gas. The gas tank is set up as a unit in connection with the metal tubing, feeding the disinfecting gases into the tube at short range.—Chicago Tribune.

Your cough annoys you. Keep on hacking and coughing, and the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all dealers.

HOW TO COOK DAIRY DISHES.
The domestic science department of the Chicago city schools will give a practical demonstration of the art of preparing dairy dishes at the National Dairy show in Chicago, Oct. 20-23. The girls will actually prepare the different foods in which dairy products are used. Butter, cheese, milk and cream enter so generally into the culinary operations of our wives and mothers that this demonstration must appeal strongly to the visitor at the show. One dollar's worth of dairy products furnish more real food value than the same investment in many other articles.

It is in time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wounds and bruises, Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all dealers.

SUNDAY EXCURSIONS TO OGDEN.
October 16th, 23rd and 30th, via O. S. L., under \$1.00 round trip rate. 45 minute service. Choice of 11 trains each way. City Ticket Office 155 Main.

From St. Louis

Trains leave daily 8.44 a. m., 12.45 p. m., 1.02 p. m., 6.00 p. m. (24-Hour Train), 8.15 p. m. and 11.35 p. m.

All these trains travel rock-ballasted track, and are controlled by block signals. The very highest type of equipment.

For further information, call at or telephone Pennsylvania's Salt Lake City Passenger Office at address W. F. YEO, Traveling Passenger Agent, 204 Judge Building.

The New Pennsylvania Station in the Heart of New York
(152)
between 7th and 8th Avenues and 31st and 33rd Streets, will be opened to traffic this year, the exact date to be announced later. This gigantic edifice is one of New York's interesting sights. See it on your next trip to New York.

Don't Starve Your Hair to Death

Many a Head of Hair, Apparently Healthy, is Slowly Starving to Death.

Hair must have sulphur or die. When the blood fails to supply sulphur in sufficient quantities, the hair loses its color, dies and falls out. When this condition begins do not delay—in order to live, hair must have sulphur and the only combination containing sulphur that the roots of the hair will absorb is

It will stop falling hair—will restore hair to its natural color—will remove dandruff in three days. It is the finest hair dressing made, because it makes the hair soft, glossy and beautiful, and is not sticky or greasy.

PRICE 50c. AND \$1.00 AT ALL DRUGGISTS.

If your druggist does not keep it send 50c. in stamps and we will send you a large bottle, express prepaid.
